

Where everyone has a seat at the table

Time Capsule 2110

What would you like to say to the people of the year 2110?

UNO's Time Capsule project invites you to write about what we might look like as a society related to racial relations in the year 2110. Through the process of writing to the people of 2110, we hope to foster visionary ideas and dreams that individuals or organizations have to address the racial divide in our society. The essays will be placed in a grouping of steel capsules in Mammel Hall on the UNO campus in April 2010, to be opened April 2110.

There are many ways that one can frame this essay.

1. What do you see our society looking like in 2110? How will we address or deal with race relations? Will it be similar to the challenges we see today? If the challenges change across the years, what new challenges might we encounter?
2. Given your perspective from participation in Omaha Table Talk or other community racial discussions, issues or events where diversity is the focus: How will racial groups interact in the year 2110?
3. What will be the philosophy and culture of the community between 2010 and 2110?

We are supporting this project. The deadline is March 30th 2010, for community individuals and groups. If you have any questions you can call A'Jamal Byndon, 561-7494 or email Suzanne Sollars at ssollars@unomaha.edu Please be sure to include biographical information about yourself or organization to include in the capsule, if you like.
